Version: 02

Date of First Issue: 19 September 2016

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

www.vishaypg.com

SECTION 1: IDENTIFICATION

Product identifier used on the label

Product Name M-Flux AR-2

Other means of identification None

Recommended use of the chemical and restrictions

on use

Recommended use Soldering Flux. Welding and soldering products

Restrictions on use Anything other than the above.

Details of the supplier of the safety data sheet

VISHAY MEASUREMENTS GROUP, INC. Supplier Address of Supplier Vishay Measurements Group, Inc.

Post Office Box 27777

Raleigh, NC 27611 USA

Telephone +1 919-365-3800 Fax +1 919-365-3945 mm.us@vishaypg.com E-Mail (competent person)

CHEMTREC (24 hours) **Emergency telephone number** 1-800-424-9300 (U.S.)

SECTION 2: HAZARD(S) IDENTIFICATION

Classification of the substance or mixture in accordance with paragraph (d) of 29 CFR 1910.1200

Physical hazards Not classified

Health hazards Flammable Liquid, Category 2 Eye Irritation, Category 2

Specific target organ toxicity — single exposure, Category 3

Environmental hazards Not classified

Hazard Symbol

Signal Word(s) **DANGER**

Hazard Statement(s) Highly flammable liquid and vapour. Causes serious eye irritation.

May cause drowsiness or dizziness.

Precautionary Statement(s) Keep away from heat, hot surfaces, sparks, open flames and other ignition

sources. No smoking.

Avoid breathing mist/vapours/spray.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Store in a well-ventilated place. Keep cool. Can form explosive mixture with air.

Other hazards

Percent of the mixture consists of ingredient(s) of

unknown acute toxicity:

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Substances Not applicable

Mixtures Substances in preparations / mixtures

Chemical identity of the substance	%W/W	CAS No.	EC No.	Hazard classification
Propan-2-ol	70	67-63-0	200-661-7	Flammable Liquid, Category 2 Eye Irritation, Category 2 Specific target organ toxicity — single exposure, Category 3 – Respiratory Irritation
Benzyl alcohol	5	100-51-6	202-859-9	Acute toxicity, Category 4 - Oral Acute toxicity, Category 4 - Inhalation Eye Irritation, Category 2

For full text of H/P Statements see section 16.

SECTION 4: FIRST AID MEASURES

Description	of firet aid	mageurae
Describiion	OF HEST AIG	measures

Inhalation IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in

a position comfortable for breathing. Apply artificial respiration if breathing has ceased or shows signs of failing. Get medical advice/attention if you feel unwell.

> After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of soap and water. If irritation (redness, rash, blistering)

develops, get medical attention.

Eye Contact IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing. If irritation develops and

persists, get medical attention.

Ingestion Immediately call a POISON CENTER/doctor. Do NOT induce vomiting. If vomiting occurs turn patient on side. Do not give milk or alcoholic beverages.

Rinse mouth with water but do not swallow. Never give anything by mouth to an

unconscious person.

Most important symptoms and effects, both acute

and delayed

Skin Contact

Indication of any immediate medical attention and

special treatment needed

Causes serious eye irritation. May cause drowsiness or dizziness.

Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

Extinguishing media

Suitable Extinguishing Media

Unsuitable extinguishing Media

Special hazards arising from the substance or mixture

As appropriate for surrounding fire. Extinguish preferably with foam, carbon dioxide or dry chemical.

Do not use water jet. Direct water jet may spread the fire.

Highly flammable liquid and vapour. May decompose in a fire giving off toxic fumes. Combustion products: Carbon monoxide, Carbon dioxide Vapours are heavier than air and may travel considerable distances to a source of ignition and flashback. In confined spaces, sewers, etc., the vapours may collect to form explosive mixtures with air.

Special protective equipment and precautions for fire fighters

Fire fighters should wear complete protective clothing including self-contained breathing apparatus. Do not breathe fumes. Keep containers cool by spraying with water if exposed to fire. Avoid run off to waterways and sewers.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment as required. Wear appropriate personal protective equipment, avoid direct contact. See Section: 8 Contaminated clothing should be laundered before reuse. Ensure adequate ventilation. Avoid breathing vapours. Avoid contact with skin, eyes or clothing. Remove all ignition sources. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Isolate the area and allow vapours to disperse. In confined spaces, sewers, etc., the vapours may collect to form explosive mixtures with air.

Large spillages:

Methods and material for containment and cleaning

Allow small spillages to evaporate provided there is adequate ventilation. Contain spillages with sand, earth or any suitable adsorbent material. Transfer to a container for disposal or recovery.

Large spillages:

Evacuate the area and keep personnel upwind. Notify police and fire brigade as soon as possible.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling

Ensure operatives are trained to minimise exposures. Ensure adequate ventilation. Avoid breathing vapours. Wear appropriate personal protective equipment, avoid direct contact. Keep away from: Elevated temperature. Keep good industrial hygiene. Wash hands thoroughly after handling. Contaminated clothing should be thoroughly cleaned. Do not eat, drink or smoke at the work place. Keep from direct sunlight. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Ground/bond container and receiving equipment.

Conditions for safe storage, including any incompatibilities

Keep only in original container. Store in a cool/low-temperature, well-ventilated (dry) place away from heat and ignition sources. Ground/bond container and receiving equipment.

Storage temperature Incompatible materials Store at ambient temperature.

Evacuate the area and keep personnel upwind.

Strong oxidising agents, Strong acids and alkali., Iron, Aluminium, Air, Halogens,

Peroxides.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits

SUBSTANCE	CAS No.	LTEL (8 hr TWA ppm)	LTEL (8 hr TWA mg/m³)	STEL (ppm)	STEL (mg/m³)	Note
Propan-2-ol	67-63-0	400	980	500	1225	NIOSH
		400	980	-	-	OSHA
		200	-	400	-	ACGIH
Rosin-based solder flux fume	8050-09-7	-	-	-	-	ACGIH, Sen

Note: OSHA PELs 1910.1000 TABLE Z-1/2/3 (delete as appropriate)/ NIOSH RELs / ACGIH TLVs

Sen: Capable of causing respiratory sensitisation

Biological exposure indicies

SUBSTANCE	CAS No.	Determinant	Biological Exposure Indices	Sampling Time	Note
Propan-2-ol	67-63-0	Acetone in Urine	40 mg/l	End of shift at end of workweek	ACGIH (B, Ns)

Source: 2015 ACGIH Biological Exposure Indicies (BEIs) B: Background. Ns: Nonspecific.

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

Appropriate engineering controls

Ensure adequate ventilation. Store in a cool/low-temperature, well-ventilated (dry) place away from heat and ignition sources. Atmospheric levels should be controlled in compliance with the occupational exposure limit. In confined spaces, sewers, etc., the vapours may collect to form explosive mixtures with air.

Individual protection measures, such as personal protective equipment (PPE)

Keep good industrial hygiene. Wear appropriate personal protective equipment, avoid direct contact. Avoid breathing vapours. Avoid contact with skin, eyes or clothing. IF exposed: Wash immediately with water. Wash contaminated clothing before reuse. Do not eat, drink or smoke at the work place.

Eye/face protection

Wear protective eye glasses for protection against liquid splashes. Eye protection with side protection.

Refilling: Full face shield, Goggles giving complete protection to eyes

Skin protection

tection Hand protection:

Wear impervious gloves. Gloves should be changed regularly to avoid permeation problems. Breakthrough time of the glove material: refer to the information provided by the gloves' producer.

Suitable materials: Nitrile rubber (Minimum thickness: 0.33 mm)

Body protection:

Wear impervious protective clothing, including boots, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

Respiratory protection

In case of inadequate ventilation wear respiratory protection. Open system(s): Wear suitable respiratory protective equipment. A suitable mask with filter type A may be appropriate.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance Amber Liquid
Odor Alcohol-like.
Odor Threshold Not established.
pH Not established.
Melting Point/Freezing Point Not established.

Initial boiling point and boiling range 82 °C Flash Point 18 °C

Evaporation Rate Not established.
Flammability (solid, gas) Not applicable
Upper/lower flammability or explosive limits UEL: 12.0 Vol%
LEL: 2.0 Vol%

Vapour pressure 43 hPa
Vapour density Not established.
Relative density 0.88 g/cm³

Solubility(ies) Partly soluble in water.
Partition coefficient: n-octanol/water Not established.

Auto-ignition temperature 425 °C

Decomposition Temperature Not established. Viscosity Not established.

15509 Rev. 2 Page: 4 of 7

Version: 02

Date of Issue: 24 October 2016 Date of First Issue: 19 September 2016

ate of First Issue: 19 September 2016 www.vishaypg.com

SECTION 10: STABILITY AND REACTIVITY

ACCORDING TO OSHA HCS (29 CFR 1910.1200)

Reactivity Stable under normal conditions.

Chemical stability Stable under normal conditions. Hazardous polymerisation will not occur.

Possibility of hazardous reactionsNo data for the mixture as a whole.

Conditions to avoid Heat and ignition sources.

Incompatible materials Strong oxidising agents, Strong acids and alkali., Iron, Aluminium, Air, Halogens,

Peroxides.

Hazardous decomposition product(s)

Air: Benzaldehyde (Benzyl alcohol) Combustion products: Carbon monoxide,

Carbon dioxide

SECTION 11: TOXICOLOGICAL INFORMATION

Information on toxicological effects (Substances in preparations / mixtures)

Acute toxicity

Ingestion Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 30,000 mg/kg

bw/day.

Benzyl alcohol: LD50 (oral) mg/kg: 1570 (Procter and Gamble Standard Procedure No. 1 for

toxicological evaluation (1977-11-04))

Inhalation Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 >200 mg/l.

Benzyl alcohol: NOAEC: 3297 mg/m³ (OECD 403)

Skin Contact Based upon the available data, the classification criteria are not met.

Acute Toxicity Estimate Mixture Calculation: Estimated LC50 > 2000 mg/kg

ow/day.

Skin corrosion/irritationEye Irrit. 2; Causes serious eye irritation.Propan-2-ol:Test Result: Irritating to eyes. (OECD 405)Benzyl alcohol:Test Result: Irritating to eyes. (OECD 405)

Serious eye damage/irritationBased upon the available data, the classification criteria are not met.Respiratory or skin sensitizationBased upon the available data, the classification criteria are not met.Germ cell mutagenicityBased upon the available data, the classification criteria are not met.CarcinogenicityBased upon the available data, the classification criteria are not met.Reproductive toxicityBased upon the available data, the classification criteria are not met.

STOT - single exposure STOT SE 3; May cause drowsiness or dizziness.

Propan-2-ol: Test Result: Higher concentrations can produce central nervous system

depression, narcosis, and unconsciousness. (OECD 403)

STOT - repeated exposureBased upon the available data, the classification criteria are not met. **Aspiration hazard**Based upon the available data, the classification criteria are not met.

Information on likely routes of exposure

InhalationPossible – accidental exposureIngestionUnlikely – accidental exposureSkin ContactPossible – accidental exposureEye ContactPossible – accidental exposure

Early onset symptoms related to exposure Breathing vapors can result in headache, dizziness, narcosis and irritation of

mucous membranes. Causes serious eye irritation.

Delayed health effects from exposure None known.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity Based upon the available data, the classification criteria are not met.

Estimated Mixture LC50 >100 mg/l (Fish)

Persistence and degradability Not expected to be readily biodegradable. Some of the components are poorly

biodegradable.

Bioaccumulative potential The product has no potential for bioaccumulation.

Mobility in soil The product has moderate mobility in soil. Partly soluble in water.

Other adverse effects None known.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods Dispose of this material and its container as hazardous waste. Send after pre-

treatment to a appropriate hazardous waste incinerator facility according to

legislation.

SECTION 14: TRANSPORT INFORMATION

ADR/RID IMDG IATA/ICAO **UN number** UN 1219 UN 1219 UN 1219 **ISOPROPANOL ISOPROPANOL ISOPROPANOL** UN proper shipping name (ISOPROPYL (ISOPROPYL (ISOPROPYL ALCOHOL) mixture ALCOHOL) mixture ALCOHOL) mixture
