Notice of New U.S. Import Tariff on Items Made in Israel

Dear Valued Customer,

We would like to inform you of a recent change to U.S. trade policy that will affect certain products shipped through our Wendell (U.S.) office.

As part of an updated set of import measures issued by the U.S. government, a 10% tariff has been introduced on specific categories of foreign-made goods, including products manufactured in Israel. These tariffs are part of a broader effort to adjust U.S. trade relations and are being implemented across various industries and product types.

Although the tariffs were announced earlier this year, we initially chose not to pass these charges on to our customers, aiming to minimize disruption and absorb the added costs. However, due to the continued financial impact, we have determined that this is no longer sustainable.

In compliance with the regulation, we will begin applying a 10% import tariff to all applicable items made in Israel and shipped via our U.S. office, effective May 8, 2025. This charge will appear as a separate line item on relevant quotes and sales orders.

Please note the following details:

- **Affected Items:** All products produced in Israel.
- **Applicability:** The tariff charge applies to all customers worldwide who purchase Israeli-made products through our Wendell, NC office, and whose shipping terms do not include U.S. customs clearance. This includes, for example, orders shipped from our Wendell office EXW Wendell, FCA Wendell, or DAP. If your order is shipped directly from Israel (e.g., under DAP, FCA Israel, or EXW Israel), this tariff will not apply.
- **Tariff Calculation:** The amount is calculated as 10% of the total value of the Israeli-made items included in the order.

This policy may be updated if future changes are made to U.S. tariff regulations. We are closely monitoring the situation and will keep you informed of any further developments.

We understand that changes like this can raise questions, and our Customer Service team is available to assist with any clarifications you may need.

Thank you for your understanding and continued partnership.

Sincerely,

Ido Eylon
Sales & Marketing Director
