

Product Change Notification (PCN)

VPG-MM Expands Production Capacity in India

Notification No.: PCN-VPG MM-002-2026 Rev 0

Issue Date: 30-Sep-2026

DESCRIPTION OF CHANGE: Increasing production capacity and expanding supporting manufacturing and quality-related activities at the India facility, while maintaining product quality and reliability.

CLASSIFICATION OF CHANGE: Production Capacity Expansion

REASON FOR CHANGE: As part of our ongoing strategy to support business growth, enhance operational flexibility, increase production capacity, support increasing customer demand, and ensure on-time delivery

EXPECTED INFLUENCE ON QUALITY/RELIABILITY/PERFORMANCE: No impact is expected on product quality, reliability, performance, form, fit, function, specifications, or regulatory compliance. All products will continue to meet the same technical and quality requirements

PRODUCT CATEGORY: Strain gages, sensors and related products

PART NUMBERS/SERIES/FAMILIES AFFECTED: All families of strain gages might be affected.

VPG BRAND(s): Micro-Measurements

TIME SCHEDULE:

1. Selected items already shipped
2. Start volume shipment date: Nov 1st, 2026

PRODUCT IDENTIFICATION: No change to product marking, labeling, ordering information, product identification, or product specifications. Country of Origin (COO) remains unchanged

QUALIFICATION DATA: Supporting qualification data will be available upon request.

ISSUED BY: Alon Shagrir, Sr. QA Manager MM-VPG
